

DESCRIPTION

SCP-100199 appears to be a human male of approximately 25 years with southern Italian origins. His real full name is **Domenico Vale**. The subject demonstrates anomalous proficiency in development and design of front-end applications, including but not limited to: Web apps, interactive web experiences, and mobile apps.

He lives in a [REDACTED] situated in [REDACTED], [REDACTED] (Campania, Italy). When he's not immersed in his work, he can occasionally be found on nearby mountain ranges with his mountain bike or sitting on sea cliffs engaging in metaphysical observations and/or meditation.

SPECIAL CONTAINMENT PROCEDURES

SCP-100199 is to be employed in a suitable web development and / or design studio comprised of nice and friendly people. Standard office amenities and a high-performance workstation featuring a Linux distribution Operating System with dual monitors and constant pizza supply are required for optimal containment.

ENGAGEMENT

You can attempt to get in contact with SCP-100199 the contact form at [domenicovale.it](mailto:holla@domenicovale.it) or via email at holla@domenicovale.it. You will receive a response in under 24 to 48 hours.

CONTAINMENT HISTORY

24/03/2020 — 24/06/2021

ACTIVITY: JR. FRONT-END DEVELOPER

LOCATION: REMOTE — VIDRA (BEMIND)

DESCRIPTION: Apprenticeship + Full time employment in which he developed and maintained several front-end (web and native) applications and utilities mostly using the ReactJs and React-Native ecosystem

31/12/2018 — ONGOING

ACTIVITY: FREELANCE WEB DEVELOPMENT AND DESIGN

LOCATION: N/A

DESCRIPTION: SCP-100199 has been developing web and native apps using the React and REact-native ecosystem, along with Nextjs, Gatsby, Astro and not shying away from trying out new interesting technologies.

31/12/2018 — ONGOING

ACTIVITY: MOBILE APPLICATION DEVELOPER

LOCATION: AMBIENTIFY

DESCRIPTION: He developed and designed this app for personal use but then decided to publish it on Google Playstore. The app was developed entirely in React Native, along with Redux as state container and Redux Persist to help with persisting state on the Async Storage. Along with a custom c++ JSI sound engine module using FMOD as base.

14/07/2012 — 11/07/2017

ACTIVITY: EDUCATION

LOCATION: ISSISS TADDEO DA SESSA — INFORMATION TECHNOLOGY

Addendum #100199-1

SCP-100199 has shown to possess remarkable adaptability and an iron strong determination to learn and improve his skills across all domains even in his hardest times. Some of those domains include: software development, reverse engineering, sports, drawing, painting, music and gardening. SCP-100199 has also shown to have surprising empathetic qualities and noble values.

Addendum #100199-2

Despite his docile and friendly nature, SCP-100199 has exhibited shy behavior when forcibly confined in overcrowded environments. In response to such stimuli, SCP-100199 has developed a unique defense mechanism: when more than 20 individuals are present in an enclosed space, SCP-100199 will begin to suppress his vital functions and stand so incredibly still to become invisible to the human eye. Once this is in effect, the only way to interact with him is offer some pizza.

Addendum #100199-3

Since SCP-100199 requires to be contained by employment, a list of commonly requested skills are presented down below to be shown to potential employers:

Programming and scripting languages

- HTML, CSS/SCSS, JAVASCRIPT, TYPESCRIPT (Primary)
- C++, PYTHON, BASH, KOTLIN (Occasional)

JS Frameworks

- REACTJS, NEXTJS, ASTRO, REACT-NATIVE, GATSBY

Misc. Technologies

- VITE, JSI, FMOD, HANDLEBARS, FIREBASE, REVENUECAT

IDEs and tools

- NEOVIM, WEBSTORM, ANDROID STUDIO, VSCODE, DOCKER, DOCKER-COMPOSE, LAZYGIT (GIT), FIGMA, PHOTOSHOP, AFTER EFFECTS
